

Zach Coleman, PT, DPT, OCS

Bio

Zach is a certified orthopedic specialist through the APTA. He has a special interest in the spine and athletic injuries, but enjoys treating all orthopedic conditions. He likes the challenge of helping his patients get back moving and doing what they love, pain-free! Outside of work, Zach enjoys spending time with his wife Nicole and his rescue pup, Sadie. On the weekends you can catch all 3 of them hiking in the mountains or hanging at a local brewery. Zach is also an avid snowboarder and tries to get out on the slopes as much as he can!
