

Canaan Prater, D.O.

Bio

Dr. Canaan Prater is a fellowship-trained adult reconstruction surgeon specializing in primary and complex revision hip and knee replacement surgery. His practice emphasizes hip and knee joint preservation and reconstruction utilizing minimally invasive techniques, including anterior hip replacement. Dr. Prater offers robotic-assisted hip and knee replacement surgery, as well as fully-customized total and partial knee replacements. He also specializes in arthroscopic surgery of the shoulder and knee.

Dr. Prater received his undergraduate degree from Virginia Polytechnic Institute and State University (Virginia Tech), where he was a member of the All-Academic Team and Athletic Director's Honor Roll. He earned his medical degree from The Virginia College of Osteopathic Medicine and completed his orthopedic residency training at the Hughston Clinic. During his residency, Dr. Prater was voted chief resident, served as editor of the Hughston Health Alert, and published multiple award-winning papers. He finished his extensive education with specialty training in hip and knee replacement surgery with the renowned Steadman Hawkins Institute.

Dr. Prater is a former NCAA Division I wrestler and enjoys the outdoors, running, mountain biking, and spending time with his wife, Casey, and their three children.
