

James Sebold, MD

Bio

Journeying through life takes a toll on the mind, body, and spirit. Injury, overuse, and disease interrupt that journey. Our goal is to help restore health and wholeness, wherever you are on the path of life.

Dr. Sebold is a fellowship-trained orthopedic surgeon that specializes in foot and ankle reconstruction. He treats all foot in ankle conditions and has a special interest in trauma. His outside passions include wilderness hiking, tennis, and yoga.
