

Getting Started with MyChart

MyChart provides you with online access to your medical record. It can help you participate in your healthcare and communicate with your providers. With MyChart, you can:

- **View all of your health information in one place.** See your medications, test results, appointments, medical bills, estimates, and more all in one place, even if you've been seen at multiple healthcare organizations.
- **Connect with a doctor no matter where you are.** Send a message, get online diagnosis and treatment, talk face-to-face over video, or arrange to follow up in person, depending on the level of care you need.
- **Take care of your children and other family members.** Stay on top of everyone's appointments and check in on family members who need extra help, all from your account.
